

# Traditional Universal lifestyle profiles

**Standard Life**

Part of Phoenix Group

**Our traditional universal lifestyle profiles are designed to make it easy for you to save for retirement, while investing responsibly. As you get closer to your retirement, they gradually and automatically move your money into carefully chosen funds designed to reflect how you plan to take your pension savings.**

You should read this together with our 'How to choose the right investment options for your pension' guide.

These are the lifestyle profiles we cover in this guide:

Profile name	Profile code
Standard Life Balanced Managed I Universal Lifestyle Profile	2BAL
Standard Life Balanced Managed Universal Lifestyle Profile	3BAL
Standard Life Balanced Managed II Universal Lifestyle Profile	4BAL
Standard Life Cautious Managed I Universal Lifestyle Profile	2CAU
Standard Life Cautious Managed Universal Lifestyle Profile	3CAU
Standard Life Cautious Managed II Universal Lifestyle Profile	4CAU
Standard Life Opportunity I Universal Lifestyle Profile	2OPP
Standard Life Opportunity Universal Lifestyle Profile	3OPP
Standard Life Opportunity II Universal Lifestyle Profile	4OPP
Standard Life Global Equity (50:50) Active Universal Lifestyle Profile	1GEA
Standard Life Global Equity (50:50) Active II Universal Lifestyle Profile	2GEA
Standard Life Global Equity (50:50) Passive Universal Lifestyle Profile	1GEP
Standard Life Global Equity (50:50) Passive II Universal Lifestyle Profile	2GEP
Standard Life Global Equity Universal Lifestyle Profile	1GLO
Standard Life Global Equity II Universal Lifestyle Profile	5GLO
Standard Life BlackRock (50:50) Global Equity Universal Lifestyle Profile <sup>1</sup>	1BGI

The FTSE All-Share Index is calculated solely by FTSE International Limited ("FTSE"). FTSE does not sponsor, endorse or promote this fund. All copyright in the index values and constituent list vests in FTSE. Licences have been obtained from FTSE to use such copyright in the creation of this fund. "FTSE®" is a trade mark jointly owned by the London Stock Exchange Plc and The Financial Times Limited and is used by FTSE under licence. "All Share" is a trade mark of FTSE.

You should make sure any lifestyle profile you choose matches your plans for taking your pension savings. We also have lifestyle profiles designed for buying a guaranteed income for life (an annuity) and taking your pension savings as one or more lump sums – visit [standardlife.co.uk/lifestyling](https://www.standardlife.co.uk/lifestyling) for more information.

It's also important to consider when you'll take your pension savings as lifestyle profiles make changes to your investments based on your selected retirement date. As a result, they may only be suitable if you're planning to start taking your pension savings on this date.

If you aren't sure if a lifestyle profile is suitable for you, you should speak to a financial adviser. There's likely to be a cost for this.

## How the profiles work

There are two main stages in our traditional Universal lifestyle profiles:

### 1. Growth stage – usually when you're more than 5-10 years from retirement

Your money will be invested in funds that aim to increase the value of your pension savings over time. Please remember that investment growth isn't guaranteed. All funds can go down as well as up in value and may be worth less than the amount invested.

### 2. Approaching retirement stage – usually when you're less than 5-10 years from retirement

Your money will gradually be moved into lower risk funds designed to give you the flexibility to take your pension savings as you want when you retire, or for if you want to take a flexible income (drawdown). This will happen automatically – you don't need to do anything.

The following charts show the funds which make up each profile and how these will vary during the years before your selected retirement date. See 'The profiles in more detail' section for more information about the funds in the profiles.

## Balanced Managed I Universal Lifestyle Profile (2BAL)

Fund name	Fund code	Volatility rating	FMC	Additional expenses*	Total annual fund charge	Active/Passive investment
Standard Life Managed Pension Fund	FA	5	1.00%	0.02%	1.02%	Active
Standard Life Multi Asset Managed (20-60% Shares) Pension Fund	F8	4	1.00%	0.02%	1.02%	Active
Standard Life At Retirement (Multi Asset Universal) Pension Fund	F9	3	1.00%	0.04%	1.04%	Active

The charges aren't guaranteed. They are regularly reviewed and may be changed in the future. The information in this guide is correct as at April 2022. If you need more help to understand these tables, including an explanation of active/passive investments, please see the 'How to choose the right investment options for your pension' guide.

\* Additional expenses aren't charged for stakeholder pensions. If you have a stakeholder pension, your charges are restricted to the fund management charge (FMC) only.

The government sets a maximum charge that can apply to stakeholder pensions. It's currently 1.5% each year for the first 10 years and then 1% for each year after that. The charges on your plan can't exceed these limits. The government could change these limits in future.

## Balanced Managed Universal Lifestyle Profile (3BAL)

Fund name	Fund code	Volatility rating	FMC	Additional expenses*	Total annual fund charge	Active/ Passive investment
Standard Life Managed Pension Fund	FA	5	1.00%	0.02%	1.02%	Active
Standard Life Multi Asset Managed (20-60% Shares) Pension Fund	F8	4	1.00%	0.02%	1.02%	Active
Standard Life At Retirement (Multi Asset Universal) Pension Fund	F9	3	1.00%	0.04%	1.04%	Active
Standard Life Money Market Pension Fund	GS	1	1.00%	0.01%	1.01%	Active

The charges aren't guaranteed. They are regularly reviewed and may be changed in the future. The information in this guide is correct as at April 2022. If you need more help to understand these tables, including an explanation of active/passive investments, please see the 'How to choose the right investment options for your pension' guide.

\* Additional expenses aren't charged for stakeholder pensions. If you have a stakeholder pension, your charges are restricted to the fund management charge (FMC) only.

The government sets a maximum charge that can apply to stakeholder pensions. It's currently 1.5% each year for the first 10 years and then 1% for each year after that. The charges on your plan can't exceed these limits. The government could change these limits in future.

## Balanced Managed II Universal Lifestyle Profile (4BAL)

## The profiles in more detail

Here we give the fund descriptions for each of the funds you'll be invested in through these profiles. These explain the aims of the funds.

For more information about the different types of investments (asset classes) the funds can invest in, please see the 'How to choose the right investments for your pension' guide.

### 1. Growth stage

#### **Standard Life Managed Pension Fund (fund code: FA)**

The goal of this Fund is to achieve long-term growth by investing in a range of asset classes, sectors and geographies. It does this by investing in other funds.

These funds mainly invest in equities (company shares) and may also invest in other assets such as bonds (loans to a government or a company), property, money market instruments, alternatives or unlisted assets. The investments in these funds can be from around the world, including emerging markets.

These funds are not restricted to a particular fund manager or investment strategy, and can be passively and/or actively managed. These funds can change from time to time without notice, to ensure the Fund continues to meet its goal.

The Fund will invest in line with our policy on Responsible Investing. Further details can be found in the fund factsheets on the Standard Life website, **standardlife.co.uk**. More information on our approach to Responsible Investment can be found on the Standard Life website.

The value of investments within the Fund can fall as well as rise and is not guaranteed – you may get back less than you pay in. The funds may use derivatives for the purpose of efficient portfolio management, reduction of risk or to meet its investment objectives if this is permitted and appropriate. The Sterling value of overseas assets held in the Fund may fall or rise as a result of exchange rate fluctuations.

#### **Standard Life Multi Asset Managed (20-60% Shares) Pension Fund (fund code: F8)**

The goal of this Fund is to achieve long-term growth by investing in a range of asset classes, sectors and geographies. It does this by investing in other funds. This Fund aims to be less volatile than the Standard Life Managed Pension Fund.

These funds invest mainly in equities (company shares), and bonds (loans to a government or a company) and may also invest in property, money market instruments, alternatives and other unlisted assets. The investments in these funds can be from around the world, including from emerging markets.

These funds are not restricted to a particular fund manager or investment strategy, and can be passively and/or actively managed. These funds can change from time to time without notice, to ensure the Fund continues to meet its goal.

The Fund will invest in line with our policy on Responsible Investing. Further details can be found in the fund factsheets on the Standard Life website, **standardlife.co.uk**. More information on our approach to Responsible Investment can be found on the Standard Life website.

The value of investments within the Fund can fall as well as rise and is not guaranteed – you may get back less than you pay in. The funds may use derivatives for the purpose of efficient portfolio management, reduction of risk or to meet its investment objectives if this is permitted and appropriate. The Sterling value of overseas assets held in the Fund may fall or rise as a result of exchange rate fluctuations.

### **Standard Life Stock Exchange Pension Fund (fund code: FB)<sup>1</sup>**

The goal of this Fund is to achieve long-term growth by investing in a range of assets, sectors and geographies. It does this by investing in other funds.

These funds will predominantly invest in equities (company shares). They may also invest in other assets such as bonds (loans to a government or a company), and money market instruments.

The investments in these funds can be from around the world, including emerging markets.

These funds are not restricted to a particular fund manager or investment strategy, and can be passively and/or actively managed. These funds can change from time to time without notice, to ensure the fund continues to meet its goal.

The Fund will invest in line with our policy on Responsible Investing. Further details can be found in the fund factsheets on the Standard Life website, **standardlife.co.uk**. More information on our approach to Responsible Investment can be found on the Standard Life website.

### **Standard Life UK Equity Pension Fund (fund code: FN)**

The fund aims to provide long term growth and is designed for investors who are looking for exposure to the UK equity market by investing in a diversified portfolio of UK equity assets. The fund invests predominantly in the shares of large and medium sized companies listed on the UK stock markets and is actively managed by our investment team, who will select stocks to try to take advantage of opportunities they have identified.

The value of investments within the fund can fall as well as rise and is not guaranteed – you may get back less than you pay in.

The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.

### **Standard Life Global Equity 50:50 Pension Fund (fund code: HT)**

The fund aims to provide long term growth by investing in a portfolio of UK and overseas equity assets. The proportions held in each component are decided after reviewing the prospects for each market and will vary from time to time around the long term strategic asset allocation of 50% in UK equities and 50% in overseas equities. Both the UK and overseas components are actively managed by our investment team to try to take advantage of opportunities they have identified.

The value of investments within the fund can fall as well as rise and is not guaranteed – you may get back less than you pay in.

The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.

The sterling value of overseas assets held in the fund may rise and fall as a result of exchange rate fluctuations.

### **Standard Life Global Equity 50:50 Tracker Pension Fund (fund code: H8)<sup>1</sup>**

The fund (before charges and tax) aims to provide a return in line with that of an index composing of 50% FTSE All-Share index and 50% MSCI World ex UK index (the Index) allowing for reinvestment of dividends. In order to meet its aim, the fund invests in index tracking funds designed to track major regions of the world's stock markets. The proportion held in each tracker fund will be in alignment with that region's proportion of the Index. The return of the fund will be affected by exchange rate fluctuations.

Please note the underlying assets in this fund are predominantly managed by Vanguard Asset Management, a leading global provider of tracker funds.

The value of investments within the fund can fall as well as rise and is not guaranteed – you may get back less than you pay in.

The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.

## 2. Approaching retirement stage

### **Standard Life Multi Asset Managed (20-60% Shares) Pension Fund (fund code: F8)**

The goal of this Fund is to achieve long-term growth by investing in a range of asset classes, sectors and geographies. It does this by investing in other funds. This Fund aims to be less volatile than the Standard Life Managed Pension Fund.

These funds invest mainly in equities (company shares), and bonds (loans to a government or a company) and may also invest in property, money market instruments, alternatives and other unlisted assets. The investments in these funds can be from around the world, including from emerging markets.

These funds are not restricted to a particular fund manager or investment strategy, and can be passively and/or actively managed. These funds can change from time to time without notice, to ensure the Fund continues to meet its goal.

The Fund will invest in line with our policy on Responsible Investing. Further details can be found in the fund factsheets on the Standard Life website, **standardlife.co.uk**. More information on our approach to Responsible Investment can be found on the Standard Life website.

The value of investments within the Fund can fall as well as rise and is not guaranteed – you may get back less than you pay in. The funds may use derivatives for the purpose of efficient portfolio management, reduction of risk or to meet its investment objectives if this is permitted and appropriate. The Sterling value of overseas assets held in the Fund may fall or rise as a result of exchange rate fluctuations.

### **Standard Life At Retirement (Multi Asset Universal) Pension Fund (fund code: F9)**

The goal of this Fund is to help make sure that at your retirement date your money is in investments which are considered appropriate if you have yet to decide how you’re going to take your retirement income, or if you want to take a flexible income (known as drawdown). It’s used as part of a lifestyle profile, and isn’t suitable as a

standalone fund or if you're building your own portfolio from our full fund range. It does this by investing in other funds.

These funds mainly invest in bonds (loans to a government or a company), and may also invest in other assets such as equities (company shares) property, money market instruments, alternatives and other unlisted assets. The investments in these funds can be from around the world, including emerging markets.

These funds are not restricted to a particular fund manager or investment strategy, and can be passively and/or actively managed. These funds can change from time to time without notice, to ensure the fund continues to meet its goal.

The Fund will invest in line with our policy on Responsible Investing. Further details can be found in the fund factsheets on the Standard Life website, **standardlife.co.uk**. More information on our approach to Responsible Investment can be found on the Standard Life website.

Some of the underlying funds may use derivatives which are complex investments where the value comes from and is dependent on the movement in other investments. Derivatives may be used to reduce the risks and/or the costs associated with making investments and to allow the generation of additional value with an acceptable level of risk. Their value can fluctuate more than that of the underlying investment. The value of derivatives can go down as well as up and in turn can affect the value of your investments.

The value of investments within the Fund can fall as well as rise and is not guaranteed – you may get back less than you pay in. The Sterling value of overseas assets held in the Fund may fall or rise as a result of exchange rate fluctuations.

### **Standard Life Deposit and Treasury Pension Fund (fund code: G4)**

The primary aim of the fund is to maintain capital and provide returns before charges in line with short term money market rates by investing in deposits and short term money market instruments.

The fund price is not guaranteed by Standard Life and there could be circumstances where the fund price may fall. A fall might happen if, for example, there is a default by one of the banks where some of the money is held or where there is an adverse market movement in the value of some of the money market instruments held. A fall may also happen if fund income falls so low as to be less than the charges applied to the fund.

The value of any investment can fall as well as rise and is not guaranteed – you may get back less than you pay in.

## **Standard Life Money Market Pension Fund (fund code: GS)**

The primary aim of the fund is to maintain capital and provide returns in line with money market rates, before charges. To meet this aim, the fund invests in a portfolio of money market instruments and invests not only in bank and building society deposits but also in a variety of other money market instruments such as Certificates of Deposits (CDs), Floating Rate Notes (FRNs) including Asset Backed Securities (ABSs) where, when purchased, repayment is within 2 years.

The fund price is not guaranteed by Standard Life and there could be circumstances where the fund price may fall. A fall might happen if, for example, there is a default by one of the banks where some of the money is held or where there is an adverse market movement in the value of one or more of the securities held due to for instance a credit event. A fall may also happen if fund income falls so low as to be less than the charges applied to the fund.

The value of any investment can fall as well as rise and is not guaranteed – you may get back less than you pay in.

## **Important information**

Before making your investment choices please make sure you read the following information, which includes details of some of the risks you should be aware of.

- Before you decide to buy, you need to know what the risks and commitments are. Read our Key Features Document. It will help you decide if this product is right for you. If you're still not sure what to do, speak to a financial adviser. There's likely to be a cost for this.
- The return on each fund depends on the performance of the assets it invests in and the charges on the fund.
- The price of units depends on the value of the fund's assets after charges. This can go down as well as up, and your investment in the fund may be worth less than what was paid in.
- We review volatility ratings regularly and they can change over time.
- Some funds invest in overseas assets. This means that exchange rates and the political and economic situation in other countries can significantly affect the value of these funds.
- The asset mix that each fund invests in is continuously reviewed. It may be changed in line with developments in the relevant markets. Part of each fund may be held in cash and other money market instruments.

- You'll probably be one of many investors in each fund you choose. Sometimes, in exceptional circumstances, we may have to wait before we can transfer or switch your investments. This is to maintain fairness between those remaining in and those leaving the fund. This delay could be for up to a month.

But for some funds, the delay could be longer:

- It may be for up to six months if it's a property based fund because property and land can take longer to sell.
- If our fund invests in an external fund, the delay could be longer if the rules of the external fund allow this.
- If we have to delay a transfer or switch, we will use the fund prices on the day the transaction takes place – these prices could be very different from the prices on the day you made the request.
- Some funds invest in property. The valuation of property is generally a matter of a valuer's opinion rather than fact.
- You can change the mix of your investments as it suits you. You can invest in up to 12 funds at any one time. You can invest in up to 20 different funds over the life of your plan but if your contract is a Group Flexible Retirement Plan (GFRP) or a Group Personal Pension Flex (GPPFlex), you can invest in any number of different funds over the life of your plan. In some situations there may be a delay in carrying out your fund switch requests.
- Transaction costs may apply when you switch in and out of funds. These will be taken into account in the price used to calculate the value of the funds on the day you switch and will vary depending on the type of fund. For example, a typical transaction cost for an equity fund is between 0.20% and 1.20% of the price you receive. But for property funds they can be much higher – up to 7% of the price you receive, or even higher in exceptional circumstances. This is because of the additional costs involved in buying and selling property, such as stamp duty.
- Some funds invest in funds managed by external fund managers. In these cases, the description of the fund is provided by the external fund manager so Standard Life can't guarantee that it's accurate.
- External fund managers are in charge of managing their own funds including what they invest in. This means that Standard Life is not responsible for these funds' performance or continued availability.
- The investment performance of the Standard Life version of a fund will be different from what you would see if you invested in the underlying fund directly. There can be several differences, due to charges, cash management, tax and the timing of investing.

- Some fund managers may look to get a better return by lending some of the assets to certain financial institutions. This involves some risk, and in certain circumstances, the fund could suffer a loss – for example, if the institution encountered financial difficulties and was unable to return the asset.
- The fund manager will use some controls to manage this risk, such as obtaining security from the borrower and monitoring their credit rating.
- Funds can sometimes use derivatives to improve portfolio management and to help meet investment objectives. A derivative is a financial instrument – its value is derived from the underlying value or movement in other assets, financial commodities or instruments, like equities, bonds, interest rates, etc.
- There is a risk that a counterparty will fail, or partially fail, to meet their contractual obligations under the arrangement. Where a counterparty fails, the fund could suffer a loss. As part of the management of a fund, a number of controls can be used to reduce the impact of this risk, such as holding collateral and monitoring credit ratings.
- Depending on how it is used, a derivative can involve little financial outlay but result in large gains or losses. Standard Life has control over the use of derivatives in its funds and external fund managers are responsible for their own controls.
- Charges are not guaranteed and can be altered in the future.
- The information in this guide is correct as at April 2022. We cannot guarantee that all funds will be available when you make an investment.
- If you choose to invest in a lifestyle profile, you can only combine this with a with-profits fund (where available). You can't combine this with any other fund, or any other lifestyle profile.
- There are important differences between with-profits and other types of investment. If you're thinking of investing in with-profits read our with-profits guide. You can find this at [standardlife.co.uk/investments/funds/with-profits-information](https://www.standardlife.co.uk/investments/funds/with-profits-information) or call us on 0800 634 7476 for your copy. Our call charges will vary.
- If you are thinking of leaving with-profits you may be giving up valuable guarantees.
